does anti racist education need to rely so heavily on feelings of anxiety anger or guilt can comedy and more specifically african american race comics help us rethink our approach to anti racist education at a time when critical race theory is under attack the need for new approaches to anti racist education is urgent unthinkable laughter addresses this need highlighting the power of humour and race comedy as valuable alternative strategies drawing on her experiences in politics as a former member of provincial parliament in ontario anti racism critic for the province and chair of ontario's first ever black caucus laura mae lindo offers a fresh perspective on rethinking anti racism work in educational settings the book applies critical race theory and culturally relevant pedagogies to canadian experiences in education and politics addressing a significant representational gap that often fosters the misleading belief that racism in education is a problem unique to the united states by introducing this theoretical framework to canadian contexts lindo offers a more inclusive global perspective on both critical race theory and culturally relevant pedagogies in education ultimately unthinkable laughter calls for a shift in how we approach anti racist education urging the exploration of humour and race comedy as powerful and effective alternative strategies

by the end of the civil war the us navy was the most advanced in the world but in subsequent years america's naval might dwindled however in the 1880s a new navy was born and at the forefront of its fleet were the mighty cruisers naval historian lawrence burr details how these cruisers allowed america to rebuild their navy exploring the design and development of these ships placing these advances in context through vivid accounts of how us cruisers performed in the spanish american war of 1898 notably at manila bay and santiago he investigates the emergence of the us navy as a major power illustrated with early photographs and full colour artwork this is a concise history of the birth and development of a modern navy that was the precursor to the development of modern steel fleets around the world

the fateful attack on pearl harbor forced the western world to revise its opinion of japan's airmen before the war japanese aviators had been seen as figures of ridicule and disdain yet the ruthless skill and efficiency of their performance in december 1941 and the months that followed won them a new reputation as a breed of oriental superman this book explores the world of the imperial japanese naval airman from the zenith of his wartime career until the turning of the tide when the skill and experience of the average japanese airman declined cultural and social background recruitment training daily life and combat experience are all covered

traditionally tourism media has referred to the image of destinations constructed through media texts such as brochures and postcards with increasing attention towards other mediascapes such as films and television yet with prolific advancements in technologies of media communication such traditional formats have experienced a shift in the productive and consumptive practices through which they come into being the possibilities of production and subsequent consumption are unequivocally changing the ways in which tourists imagine understand and engage with destinations this book therefore explores the role of tourism media and mediating practices in the development of non linear processes of communication and understanding as both producers and consumers come together to negotiate the tourist experience in varying ways it examines the emergent relationships and connections between media practices and tourism practices everyday experiences and encounters of place collectively the authors in this book address a range of media and technologies from brochures television video and film to mediated virtual spaces such as e brochures internet cultures social networks and google earth in doing so the book highlights the continued significance of media in tourism contexts recognising both traditional and newer technologies and the non linear continuous cycle of mediated representations and experiences

when re armament came after world war i the german navy was forced to build anew so the reichsmarine and its successor the kriegsmarine found itself in possession of some of the most modern powerful and technically advanced vessels in the world germany was very selective in picking her sailors and the quality of manpower skill levels was thus very high this book charts the recruitment training service conditions and combat experiences of a typical world war ii german sailor focusing on the main branches of the navy as well as the last ditch combat units thrown into action as infantry in the final days of the war

a detailed account of the first check of japanese naval expansion in the pacific the battle of the coral sea is unique in the annals of naval history it is the first battle in which enemy fleets never came within sight of one another instead aircraft launched from carrier decks were sent out to attack the enemy with bombs and torpedoes in may of 1942 the japanese fleet moved on port moresby the last allied base between australia and japan forced to respond the americans sent two aircraft carriers to protect the base in the ensuing battle one american carrier was

destroyed and the other severely damaged however the japanese also lost a carrier and decided to withdraw although bloody it proved to be an important strategic victory for the allies as the japanese were forced to attempt future attacks on port moresby over land using updated research and numerous period photographs retired usn commander mark o stille tells the story of this important and unique battle in the pacific war
