this book offers a close investigation of interactional practices in l2 classrooms with an emphasis on the multimodal and multilingual resources this is an essential study for researchers and postgraduate students in tesol and applied linguistics

discovery in haste is the first book to survey the english printed medical dictionary a greatly under researched area from andrew boorde s breviary of helthe of 1547 to benjamin lara s surgical dictionary of 1796 the book begins with andrew boorde s breviary of helthe of 1547 moves on to medical glossaries which were produced through the whole period the physical dictionaries of the mid seventeenth century which first employed dictionary in the title the translation into english of steven blancard s dictionary latin medical dictionaries of the late seventeenth century by thomas burnet and john cruso the influential dictionary by john quincy which dominated the eighteenth century surgical dictionaries through to that by benjamin lara robert james s massive encyclopaedic dictionary and the work derived from it by john barrow as well as george motherby s dictionary of 1775 the characteristics of each are discussed and their inter relationships explored attention is also paid to the printing history and the way the publishers influenced the works and where appropriate to the

influence each had on succeeding dictionaries this book is the first to locate medical dictionaries within the history of lexicography

given the new technological advances and their influence and imprint in the design and development of dictionaries and lexicographic resources it seems important to put together a series of publications that address this new situation dealing in particular with multilingual and electronic lexicography in an increasingly digital multilingual and multicultural society this is the main objective of this volume which is structured in two central aspects in the first of them the concept of multilingual lexicography is discussed in regard to the influence that the internet and the application of digital technologies have exercised and continue to exercise both in the conception and design of dictionaries and new lexicographic application tools as well as the emergence of new types of users and forms of consultation the role of the dictionary must necessarily be related to social development and changes in the second thematic section different dictionaries and resources that focus on a multilingual and electronic approach to the linguistic data for their lexicographical treatment and consultation are presented

the contributions build a bridge between traditional european lexicography and the diversity of lexicographic practice in australia demonstrating the importance of lexicography in the digital age special focus is placed on the socially relevant functions of specific types of dictionaries social linguistic self assurance and identity formation in specialized fields slang dialects as well as in living and endangered languages

foreign language learners often use electronic dictionaries or other information from the internet to solve language problems however they seem to have great difficulty using dictionaries and online resources appropriately profitably and successfully their teachers also seem unfamiliar with the current dictionary landscape and sometimes insist on using a single monolingual print dictionary in class as a result dictionaries are often banned from the classroom altogether however in today s digital global and multilingual world appropriate competence in the use of dictionaries is an essential communicative strategy dictionary didactics should thus be integrated into foreign language teaching against this background the contributions in this volume discuss how dictionary use can be promoted and integrated into the classroom they also consider how modern lexical resources and dictionaries should be designed to support learners last but not least they present ideas for educational policies that could promote the use of dictionaries and lexicographic online resources

this volume offers important insights to language teachers authors of language teaching materials practical lexicographers and other applied linguists

english lexicography and linguistics have always shared close ties yet the potential of cognitive linguistics for lexicography has only been hesitantly acknowledged in the literature this is what cognitive lexicography attempts to change by using insights gained in cognitive semantic research for the development of new dictionary features after a short survey of the history and practice of english monolingual learner lexicography as well as an outline of the relationship between linguistics and lexicography three new dictionary features are developed they cover three different cognitive semantic theories as well as three different parts of the monolingual dictionary entry each time for a new set of lexemes frame semantics conceptual metaphor theory as well as cognitive conceptions of polysemy are used to create a new example section for agentive nouns a new defining structure for emotion terms and a new microstructural arrangement for particle entries dictionary analyses on all as well as user studies on two of the features complement these suggestions the monograph thus presents a new approach to lexicography that incorporates into its description of lexical items how humans perceive and conceptualise language
