opportunities for learning brings together the works of one of the most highly regarded past presidents of the American Sociological Association focusing

on uncovering and addressing educational inequities in elementary and secondary schools few sociologists of education can rival the depth and breadth of maureen t hallinan s contributions to the field this book compiles her writings some of which have never been published before to bring the full insight of both her sociological imagination and her theoretical and empirical research through articles book chapters and invited lectures hallinan explores the interplay among theory research and policy other pieces focus on the importance of opportunities to learn peer friendships and ability grouping for instruction she writes in depth about various attempts of educational reform and the effects of catholic schools hallinan sought to address the enduring problems of sociological theorizing and research within education and her writings contribute important insights and provide foundations for the next generation of social scientists this collection demonstrates hallinan s keen ability to communicate balanced inquiry by engaging multiple perspectives in her theoretical framework coupled with strong empirical testing of the relationships

provides teachers with eight reproducible reading and math tests that prepare students in seventh and eighth grade for national standardized exams

in 1983 the seminal report issued by the national commission on excellence in education a nation at risk charged that most american high schoolers were following a general course of instruction choosing neither the college preparatory track nor the vocational option this pattern the report complained had fostered low expectations and a curricular hodge podge of classes that failed to prepare students for college or work the commission called on states to implement academic requirements for all students regardless of background including four years of english and three years each of science mathematics and social studies students should not be sorted by their presumed future destinations the commission reasoned but should be offered an equal opportunity to get a high quality education to fit them either for postsecondary education or the modern workplace two decades after the commission called on states to reform the high school environment and raise graduation requirements the brown center on education policy at the brookings institution convened a group of prominent scholars to explore the current state of america s high schools focusing on new research about reforming these institutions that are so important in the lives of the nation s adolescents the questions considered reflected the diversity of the participants and covered a variety of areas historical international sociological and practical data gathered by the u s department of education show students today are taking many more advanced courses in mathematics and the sciences while at the same time test scores do not reflect the increases in enrollments in academic courses in addition large score gaps remain among students from different social groups reform of the high schools must take into account the elementary and middle schools that prepare students and the postsecondary institutions to which students aspire adolescent culture and students views about school and academic work play important roles in student achievement as do the family and contemporary society in shaping of adolescent behavior no matter their background all participants agreed that the key to a successful high school rests with the extent to which it recognizes and strengthens its commitment to the intellectual growth of its students

featuring practice tests and drill questions this guide s second edition will
