many commentators tell us that in today s world everyday life has become selfish and atomised that individuals live only to consume but are they wrong in me me me jon lawrence re tells the story of england since the second world war through the eyes of ordinary people including his own parents to argue that in fact friendship family and place all remain central to our daily lives and whilst community has changed it is far from dead he shows how in the years after the second world war people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable and as soon as they could millions escaped the closed face to face communities of victorian britain where everyone knew your business but this was not a

rejection of community per se but an attempt to find another new way of living which was better suited to the modern world community has become personal and voluntary based on genuine affection rather than proximity or need we have never been better connected or able to sustain the relationships that matter to us me me me makes that case that it s time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past
