care trajectory management refers to the work that nurses do to coordinate and organise patient care it s a relatively unseen element of the nursing role that is absolutely vital for patient safety and quality care care trajectory management foundations in the organising work of nurses is the first ever textbook of its kind for nurse educators practice facilitators and policy makers as well as undergraduate nurses it is both a theoretical and practical resource covering the concepts and theories around the organisational components of nursing practice derived the research of nurse academic davina allen this excellent book will help prepare nurses to be the glue in increasingly complex healthcare systems and provides an excellent foundation for embedding this important subject into student curricula the first textbook of its kind a valuable resource for both experienced nurses and undergraduates evidence based derived from research led by the author covers the history of nursing s professional development professional identity healthcare quality and safety healthcare systems managing complexity care coordination tacit knowledge nursing theory organising work care trajectory management framework translational mobilisation theory illustrative case studies based on observational studies bring theory to life exercises quick quizzes and reflective practice help to apply learning online downloadable workbooks to organise learning

this is a report on the proposed changes to s4c s funding and governance by the department for culture media and sport dcms following the 2010 comprehensive spending review the committee says a deal over s4c s future was struck in regrettable haste by the bbc and ministers and that more detail should be given on the proposed funding and governance arrangements for the broadcaster nevertheless the committee argues that the proposed deal should result in synergies and cost savings for both broadcasters with studies estimating that s4c is responsible for sustaining over 2 000 jobs in wales and contributing 90 100 million to the welsh economy it is crucial that s4c continues to independently commission its programming from production companies based in wales rather than additional programming being supplied to the channel by the bbc under the government s proposed arrangements s4c s funding will shift from being provided by a direct grant from dcms to funding through the bbc s licence fee while it is essential that the dcms the bbc and s4c work together to achieve potential synergies and efficiencies this must not detract from s4c s independence the dcms and the bbc must guarantee s4c s funding and ensure that s4c receives in full its allocated portion of the licence fee the committee also argue for an enhanced

role for the national assembly for wales in holding the s4c authority to account for its performance and for a wider review of the purpose and remit of the broadcaster

alice celebrates the special moments and the everyday blessings of life come sit awhile with alice taylor take a little time out to rest to think or just to be life can race along at a fast pace sometimes almost stampeding us along with it what a pity not to slow down and take the time to enjoy little things or simply doing nothing or chatting with a good friend sometimes alice finds a comfortable place to sit maybe a low wall a garden seat or a grassy bank a place to let the mind calm down and let thoughts drift with this book she invites you to share the special moments of life

although the national assembly of wales has limited law making powers they can be enhanced given parliamentary consent by a new procedure known as legislative competence order in council this sits alongside a procedure where acts of parliament may prescribe matters on which the national assembly may legislate within areas known as fields for which it has responsibility in this report the committee examine the new procedure although it welcomes the chance to be involved in the pre legislative scrutiny of draft orders it is worried about the potential work load and think there could be merit in ad hoc committees set up to examine each proposed legislative competence order there is also a concern that matters added by provisions in bills of a general nature will not have the same degree of scrutiny as legislative competence orders
