the objective of this document is to help your business conduct a risk assessment which identifies current risks and threats to
the business and implement measures to eliminate or reduce those potential risks this document provides guidance on how to
conduct the risk assessment analyze the information that is collected and implement strategies that will allow your business to
manage the risk

a training programme around the national plan of action for small scale fisheries npoassf has been developed to support these
processes at national level this guide for trainers was developed to be used along with the rest of trainings materials on how

to to develop and implement an npoa ssf npoa ssf processes are unique in their kind because they ensure that the voices and concerns of small scale fisheries are heard and allow them to actively participate in decision making processes that shape their lives and livelihoods in doing so implementing an npoa ssf is an effective way to align legal frameworks with the provisions of the voluntary guidelines for securing sustainable small scale fisheries in the context of food security and poverty eradication ssf guidelines these guidelines unite social development with responsible fisheries hence addressing the marginalization and vulnerability present in the sector promoting a human rights based approach

this book brings together the best of visible learning and the teaching of mathematics the chapters on learning intentions success criteria misconceptions formative evaluation and knowing thy impact are stunning rich in exemplars grounded in research about practice and with the right balance about the surface and deep learning in math it s a great go to book for all who teach mathematics john hattie laureate professor deputy dean of mgse director of the melbourne education research institute melbourne graduate school of education your blueprint to planning k 2 math lessons for maximum impact and understanding not sure of tomorrow morning s lesson plan or maybe you feel it isn t tailored enough for your students needs what do you do for that and more help is here the mathematics lesson planning handbook grades k 2 your blueprint for building cohesive lessons guides teachers step by step through the decision making process of planning k 2 math lessons that are purposeful rigorous and coherent instructional experts beth mccord kobett ruth harbin miles and lois a williams streamline and deepen the lesson planning process showing teachers how to access students complex needs clarify learning intentions

and select tasks that will best lead to student understanding of mathematical concepts and skills along the way teachers create an individualized blueprint for planning k 2 math lessons for maximum student learning the lesson planning process guides teachers to identify the mathematical content language and social learning intentions for a lesson or unit and connect goals to success criteria determine the purpose of a math lesson you re planning by distinguishing between conceptual understanding procedural fluency and transfer select worthwhile tasks and materials that make the best use of representations manipulatives and other instructional tools and resources choose the format of your lesson using reasoning and number routines games whole class discussion and pairs or small group work anticipate student misconceptions and evaluate understanding using a variety of formative assessment techniques decide how you ll launch your lesson facilitate questioning encourage productive struggle and close your lesson included is a lesson planning template and examples from kindergarten first and second grade classrooms chapter by chapter the decision making strategies empower teachers to plan math lessons strategically to teach with intention and confidence and to build an exceptional foundation in math for all students
