this book provides a comprehensive view of rational suicide in the elderly a group that has nearly twice the rate of suicide when chronically ill than any other demographic its frame of reference does not endorse a single point of view about the legitimacy of rational suicide which is evolving across societies with little guidance for geriatric mental health professionals instead it serves as a resource for both those clinicians who agree that older people may rationally commit suicide and those who believe that this wish may require further assessment and treatment the first chapters of the book provides an overview of rational suicide in the elderly examining it through history and across cultures also addressing the special case of baby boomers this book takes an ethical and philosophical look at whether suicide can truly be rational and whether the nearness of death in late life adults means that suicide should be considered differently than in younger adults clinical criteria for rational suicide in the elderly are proposed in this book for the first time as well as a guidelines for the psychosocial profile of an older adult who wants to commit rational suicide unlike any other book this text examines the existential psychological and psychodynamic perspectives a chapter on terminal mental illness and a consideration of suicide in that

context and proposed interventions even without a diagnosable mental illness also plays a vital role in this book as these are key issues in within the question of suicide among the elderly this book is the first to consider all preventative measures including the spiritual as well as the psychotherapeutic and pharmacologic a commentary on modern society aging and rational suicide that ties all of these elements together making this the ultimate guide for addressing suicide among the elderly rational suicide in the elderly is an excellent resource for all medical professionals with potentially suicidal patients including geriatricians geriatric and general psychiatrists geriatric nurses social workers and public health officials

twenty nine collected essays represent a critical history of shakespeare s play as text and as theater beginning with samuel johnson in 1765 and ending with a review of the royal shakespeare company production in 1991 the criticism centers on three aspects of the play the love friendship debate

this text brings together spokespersons from several different disciplines who can present their arguments for or against rational suicide as a viable concept and consequently a realistic option the pros and cons of the discussion format bring the readers to search for their beliefs and the final decision of acceptance or rejection of the concept is left to each individual reader

suicide and how civilized people should respond to it is an increasingly controversial topic in modern society in holland suicide is the third leading cause of death of people between the ages of fifteen and forty in the united states it is the second leading cause of death among older teenagers laws prohibiting assisted suicide are being directly and boldly confronted by activists in the united states most notably jack kevorkian meanwhile the american civil liberties union has publicly declared suicide a fundamental human right that should be protected under the constitution the hemlock society has introduced referenda in california washington and oregon to legalize suicide and assisted suicide the most vocal opposition to these initiatives has come from the roman catholic church breaking the thread of life marshalls philosophical moral medical historical and theological arguments in support of the roman catholic position against suicide in a comprehensive study of the history of suicide barry shows that christian civilization was one of only a few early societies that was able to bring suicide under control he counters claims that catholicism and the bible endorse rational suicide barry also analyzes arguments in support of the rationality of suicide and illuminates their biases inadequacies and dangers barry presents the rationale for the roman catholic church s strong extensive and articulate opposition to efforts to gain legal and social endorsement of suicide and assisted suicide his book represents the most complete study of the classical roman catholic view of rational suicide to date and it will be of significant interest to philosophers theologians physicians and lawyers

the idea that suicide may be an acceptable rational option is rarely presented in professional literature however recent events and developments forcefully demonstrate that mental health professionals can no longer ignore the possibility that people can make a rational decision to die after introducing the concept of rational suicide the

book explores the changing views of suicide over the centuries common arguments against rational suicide are examined and rebutted

it is slowly becoming accepted that people with terminal illnesses who are suffering physically and mentally from the illness have the moral and legal right to choose suicide and in some jurisdictions they have the ability to obtain assistance from others in accomplishing their suicide physician assisted suicide is legal in oregon and other regions of the usa and in some countries such as switzerland however the presence of a psychiatric disorder in the individual usually makes it illegal for a physician to assist individuals by prescribing a lethal dose of medication in dying by suicide what if the person does not have a terminal illness does this mean that their choice of suicide cannot be a rational decision what if the person can be diagnosed with a psychiatric disorder does their psychiatric disorder eliminate the possibility of rational thought typically today the answer to both of these questions is yes in this book david lester a renowned scholar in the field of suicide argues that the answer to both questions should be no in august 2013 martin manley chose to die by suicide and left a website in which he had written his thoughts for the previous year and a half lester analyzes manley s writing and relevant psychological research to argue that manley s decision was the result of rational thinking despite the fact that manley did not have a terminal illness the book also examines the notion that people with a psychiatric disorder cannot think rationally or make rational decisions lester first criticizes psychiatry for being scientifically unsound and then presents evidence that those labeled by psychiatrists as having a mental illness can make rational decisions lester also presents the case of jo roman who was suffering from terminal cancer who refused further treatment and arranged to die by suicide supported by her husband and large circle of friends lester concludes that deaths by suicide may be rational more often than we commonly believe and that these deaths may be appropriate ways of dying provided by publisher

rational suicide irrational laws argues that laws aimed at preventing suicide and laws aimed at facilitating it co exist because they are based on two radically disparate conceptions of the would be suicide this is the first book that unifies policies and laws toward people who want to end their lives

this book provides a broad systematic and comprehensive exploration of both historical and contemporary argumentation concerning suicide it probes the underlying ethical religious and philosophical issues about self caused death and shows how they are crucial in the current debate
