this updated edition provides an ideal teaching text for first year university and college courses

authored by four leading scholars and teachers introduction to sociology provides an authoritative introduction to basic concepts major theories and current research in a streamlined easy to navigate format a consistent four part chapter structure makes the reading manageable without sacrificing coverage while inquisitive norton's award winning adaptive learning platform helps ensure students are mastering the content at the end of every chapter a discussion of unanswered questions highlights the power of the sociological imagination to help us better understand our complex society

in this book anthony giddens addresses a range of issues concerning current developments in social theory relating them to the prospects for sociology in the closing decades of the twentieth century composed of closely integrated papers all written over the past few years the book includes seven essays not

previously published plus two have not appeared in English before in assessing the likely future evolution of sociology in particular and the social sciences in general the author both draws upon ideas established in his more abstract theoretical writings and examines critically competing traditions of thought those looking for an accessible introduction to Giddens's writing will find in this book a set of clear expositions of his basic ideas by situating these ideas in relation to the critical assessment of the views of others however the author provides new sources of insight into the distinctiveness of his own claims

social life is in a constant process of change and sociology cannot afford to stand still sociology today is theoretically diverse covers a huge range of subjects and draws on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions Anthony Giddens and Philip W. Sutton provide an extended discussion of each concept which sets it into historical and theoretical context explores its main meanings in use introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to citizenship the environment and intersectionality it will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world

whilst particularly useful as a companion to the sixth edition of Giddens's sociology the reader is designed for use independently or alongside other textbooks

sociology a brief but critical introduction offers a lively discursive and jargon free introduction to sociology accessible to the lay reader as well as to the student it incorporates discussion of recent developments in both social theory and empirical social research developments to which Giddens has directly contributed

regarded as the most authoritative introduction to contemporary sociology essentials of sociology adds a new author to its team with the second edition

this is a new and revised edition of a book which has already established itself as a basic text in social theory the first section of the work provides a concise critical analysis of some leading schools of thought in social philosophy giving particular attention to phenomenology ethnomethodology and Wittgensteinian thought Giddens concentrates primarily upon the implications of these various perspectives for an account of human action and its intelligibility an action approach on its own however will not do in human social life action and structure presuppose one another the author therefore moves on to provide a series of concepts relevant to understanding the production and reproduction of society the book concludes with a succinct statement of some new rules of sociological method representing the first and most trenchant exposition of the principles of structuration theory this edition also contains a substantial new introduction in

which giddens replies to some of the more persistent criticisms made of the original version and also addresses some important issues originally discussed only in a cursory way

anthony giddens is one of the most famous and influential sociologists of recent decades largely credited with the concept of the third way he continues to be a key advisor to tony blair and is generally presented as an exponent of liberalism and socialism this book provides a controversial introduction to giddens work covering the wide range of his writing from theory to self reflexivity modernity and politics placing them all within the illuminating framework of a historical context giddens writing has always embodied a political and ethical position one that has changed considerably over the years and is best understood through the social context in which it was written his work in the 1970s attempted to marry liberalism and socialism but following the collapse of communism in the 1990 east european revolutions his world view became liberal rather than socialist and his later work on reflexivity and the third way embodies this loyal explores how this world view accounts for many tensions and failures in giddens theory and that overall his work is fundamentally flawed

anthony giddens is one of the world's most prominent and prolific sociologists and yet he is also a difficult study for the beginning student of sociology this is the first introduction to the work of giddens including the major part of his sociological and social theoretical project the author traces giddens development from the late sixties to the nineties in a straightforward readable style covering all parts of giddens's sociology in a well arranged summary also featured is a lengthy interview with giddens by the author and the most comprehensive giddens bibliography to date

the indispensable guide to understanding the world we make and the lives we lead this thoroughly revised and fully updated tenth edition remains unrivalled in its vibrant engaging and authoritative introduction to sociology the authors provide a commanding overview of the sociological approach to contemporary global challenges and the latest conceptual developments in this fascinating subject written in a fluent easy to follow style the book manages to be both intellectually rigorous and readily accessible as well as providing a firm grounding in the classics of the field and their decolonial critique it draws particular attention to dominant themes shaping the social world today from the increasing digitization of society to the important role identity plays in numerous contexts beginning with a solid foundation in the basics of sociology its purpose methodology and theories subsequent chapters offer up to the minute overviews of the discipline's core areas of concern from poverty inequality and gender to digital media political polarization and climate change maintaining its focus on global connections which has animated this book since its very first edition the tenth edition further develops its interactive pedagogy aiming to engage and excite readers helping them to see the enduring value of thinking sociologically the tenth edition continues to set the standard for introductory sociology in an ever more complex social world it is the ideal teaching text for first year university and college courses and will help to inspire a new generation of sociologists the indispensable guide to understanding the world we make and the lives we lead this thoroughly revised and fully updated tenth

edition remains unrivalled in its vibrant engaging and authoritative introduction to sociology the authors provide a commanding overview of the sociological approach to contemporary global challenges and the latest conceptual developments in this fascinating subject written in a fluent easy to follow style the book manages to be both intellectually rigorous and readily accessible as well as providing a firm grounding in the classics of the field and their decolonial critique it draws particular attention to dominant themes shaping the social world today from the increasing digitization of society to the important role identity plays in numerous contexts beginning with a solid foundation in the basics of sociology its purpose methodology and theories subsequent chapters offer up to the minute overviews of the discipline's core areas of concern from poverty inequality and gender to digital media political polarization and climate change maintaining its focus on global connections which has animated this book since its very first edition the tenth edition further develops its interactive pedagogy aiming to engage and excite readers helping them to see the enduring value of thinking sociologically the tenth edition continues to set the standard for introductory sociology in an ever more complex social world it is the ideal teaching text for first year university and college courses and will help to inspire a new generation of sociologists

it is likely that this book will be regarded as the most important piece of grand sociological theory in english of the past decade mark poster university of california this book will take its place alongside such major statements of sociological theory as those of parsons and habermas anyone interested in the state of the social sciences today the character of social theory or the relevance of philosophy to social theory will now find it essential to grapple with giddens's bold and incisive book richard bernstein haverford college usa anthony giddens's new book is the fullest presentation yet of his theoretical views it has the lean sparse utterly serious craftsmanlike qualities we have learned to expect from its author and which make it a real pleasure to read dennis wrong times higher education supplement

now available in a discounted bundle buy the exciting new sixth edition of anthony giddens's sociology alongside the specially tailored and revised selection of key sociological works in sociology introductory readings the main textbook provides an authoritative overview of recent global developments and new ideas in sociology classic debates are also given careful coverage with even the most complex ideas explained in an engaging way the reader offers a stimulating and wide ranging set of readings to enable students to get to grips with original sociological thinking a strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively yet remains challenging together the two books provide an engaging and thorough introduction to the full scope of sociology a comprehensive resource for all students for additional support and material please visit the accompanying website at [politybooks.com/giddens6](http://politybooks.com/giddens6)

the textbook and readings that teach students how issues in our global society connect to their own lives

anthony giddens has made original contributions to the fields of social theory political sociology the sociology of stratifications suicide this set includes carefully selected secondary articles which bring out the scope of his work

this book is built upon a series of critical encounters with major figures in classical and present day social and political thought the volume offers not only a challenging critique of major traditions of social and political analysis but unique insights into the ideas which anthony giddens had developed over the past two decades
