born in east bergholt suffolk on 11 june 1776 constable was the second son of the six children of golding constable and ann watts he was educated at a private school in lavenham and at the grammar school in dedham subsequently joining the family business of which it was intended he would succeed as manager he learned the technique of painting from john dunthorne a local plumber and glazier who was an amateur painter and was encouraged by sir george beaumont

staying with relatives at edmonton in 1796 he met john cranch a mediocre artist whose style he imitated and john thomas smith the antiquarian draftsman with whom he made drawings of picturesque cottages in 1799 his father gave him an allowance to enter the royal academy schools reluctantly consenting in 1802 to his becoming a professional painter that same year constable showed his first landscape at the academy where he was to exhibit nearly every year until his death and acquired a studio opposite the family house he spent summers in east bergholt sketching from nature until 1817 in the autumn of 1806 he made a two month visit to the lake district in 1809 constable met and fell in love with maria bicknell but he was unable to marry her until 1816 owing to the opposition of maria s grandfather after the marriage the couple lived in london first on keppel street then after 1822 on charlotte street the marriage which was the prelude to constable s finest work was a deeply happy one and there were seven children to whom the artist was devoted maria s health was far from robust however and she died in 1828 a blow from which constable never fully recovered

john constable is arguably the most accomplished painter of english skies and weather of all time for constable the sky was the keynote the standard of scale and the chief organ of sentiment in a landscape painting but how far did he understand the workings of the forces of nature which created his favourite cumulus clouds portrayed in so many of his skies over the landscapes of hampstead heath salisbury and suffolk and were the skies he painted scientifically accurate in this lucid and accessible study john thornes provides a meteorological framework for reading the skies of landscape art compares constable s skies to those produced by other artists from the middle ages to the nineteenth century analyses constable s own meteorological understanding and examines the development of his painted skies in so doing he provides fresh evidence to identify the year of painting of some of constable s previously undated cloud studies

clouds have been objects of delight and fascination throughout human history their fleeting magnificence and endless variety having inspired scientists and daydreamers alike described by aristophanes as the patron goddesses of idle men clouds and the ever changing patterns they create have long symbolized the restlessness and unpredictability of nature and yet they are also the source of life giving rains in this book richard hamblyn examines clouds in their cultural historic and scientific contexts exploring their prevalence in our skies as well as in our literature art and music as hamblyn shows clouds function not only as a crucial means of circulating water around the globe but also as a finely tuned thermostat regulating the planet s temperature he discusses the many different kinds of clouds from high scattered cirrus clouds to the plump thought bubbles of cumulus clouds even exploring man made clouds and clouds on other planets he also shows how clouds have featured as meaningful symbols in human culture whether as ominous portents of coming calamities or as ethereal figures giving shape
