now in its fifth edition diffusion of innovations is a classic work on the spread of new ideas in this renowned book everett m rogers professor and chair of the department of communication journalism at the university of new mexico explains how new ideas spread via communication channels over time such innovations are initially perceived as uncertain and even risky to overcome this uncertainty most people seek out others like themselves who have already adopted the new idea thus the

diffusion process consists of a few individuals who first adopt an innovation then spread the word among their circle of acquaintances a process which typically takes months or years but there are exceptions use of the internet in the 1990s for example may have spread more rapidly than any other innovation in the history of humankind furthermore the internet is changing the very nature of diffusion by decreasing the importance of physical distance between people the fifth edition addresses the spread of the internet and how it has transformed the way human beings communicate and adopt new ideas

what is the new economy what makes it new and what are the implications for antitrust regulation and macroeconomic policy providing a non technical and compelling analysis of the modern macro economy the contributors to this volume eminent scholars all provide their views on the new economy from a variety of perspectives the phrase the new economy means many things to many people it is often used to refer to the information economy the high tech economy or to the explosive growth of the world wide it has also been used to refer to the expansion and stock market boom of the last decade despite these confusions and excesses in the term s usage there is indeed something new about the new economy the initial set of three chapters explores what may be the defining feature the resurgence of productivity growth in the united states in the 1990s and its link to the it revolution macroeconomic policy challenges are also discussed the second set of papers concentrates on what is perhaps the second defining feature of the new economy the idea of network economies the contributors consider challenges for regulatory policy look at internet pricing policies and challenge some aspects of network economics the volume concludes with a discussion of how the us postal service an important exemplar of the changing world responds to competition students scholars and all those interested in gaining a better understanding of the global economy will find this volume a valuable resource

learning and identity development are lifetime processes of becoming the construction of self of interest to scholars and practitioners in adult development and adult learning is an ongoing process with the self both forming and being formed by lived experience in privileged and oppressive contexts intersecting identities and the power dynamics within them shape how learners define themselves and others and how they make meaning of their experiences in the world i am what i become constructing identities as lifelong learners is an insightful and diverse collection of empirical research and narrative essays in identity development adult development and adult learning the purpose of this series is to publish contributions that highlight the intimate connections between learning and identity our aim is to promote reflection and research at the intersection of identity and adult learning at any point across the adult lifespan and in any space where learning occurs in school at work or in community the series aims to assist our readers to understand and nurture adults who are always in the process of becoming
