three photographic essays offer a study of the neglected nooks and crannies between structures from gates and fences to sidewalks alleys and parking lots in his exploration of how spaces become places geographer ford invites readers to see anew the spaces they encounter every day and often take for granted 52 halftones

over the last 50 years architect jan gehl has changed the way that we think about architecture and city planning moving from the modernist separation of uses to a human scale approach inviting people to use their cities people cities tells the inside story of how gehl learned to study urban spaces and implement his people centered approach in car dominated cities it discusses the work theory life and influence of gehl from the

perspective of those who have worked with him in cities across the globe it will inspire anyone who wants to create vibrant human scale cities and understand the ideas and work of the architect who has most influenced urban design

this is the most comprehensive single volume on english architecture for the general reader it is a visual cornucopia and a tribute to the diversity of the english built environment which is among the richest and most diverse in the world over 700 buildings are described and illustrated and they range from the architectural icons to the less noticeable but equally fascinating buildings of england s towns and villages

log home living is the oldest largest and most widely distributed and read publication reaching log home enthusiasts for 21 years log home living has presented the log home lifestyle through striking editorial photographic features and informative resources for more than two decades log home living has offered so much more than a magazine through additional resources shows seminars mail order bookstore site and membership organization that s why the most serious log home buyers choose log home living

includes beginning sept 15 1954 and on the 15th of each month sept may a special section school library journal issn 0000 0035 called junior libraries 1954 may 1961 also issued separately

the main aim of this book is to present an intriguing retrospective of building performance evaluation bpe as it evolved from post occupancy evaluation poe over the past 25 years on one hand this is done by updating original authors chapter content of building evaluation the first edition published in 1989 that in turn is augmented by an orientation toward current and future practice on the other including new authors who are engaged in ongoing cutting edge projects therefore individual methodology oriented chapters covering the fundamental principles of poe and bpe go along with major thematic chapters topics of which like sustainability or integration of new technologies are addressed in a diversity of case studies from around the globe research methodologies and framework of poes continue to evolve poes are one step on the larger scale of bpe in understanding how buildings function after they are occupied this resource helps architects building owners and facility managers understand the implications and reactions to the facilities that they designed built and or commissioned by considering the whole process from conception to future uses of the building there can be a more holistic approach to the planning programming design construction occupancy and future adaptability of the structure this book is dedicated to first editor wolfgang f e preiser who passed away during the process of editing and reviewing chapters of this volume

the authors first examine what is meant by the concept of a responsive environment and

then provide an illustrated step by step guide on how to achieve it in real life design the book demonstrates the specific characteristics that make for comprehensible and controllable places

if you re looking for a book to introduce you to the pleasures of architecture if you want to be able to enjoy buildings just like music and art if you want to learn how to appreciate the buildings you experience every day as well as the ageless masterpieces but you don t know where to begin this is the book you ve been waiting for here is a book that explains how to experience and appreciate the spaces and forms of architecture just as you experience a painting or a symphony written by practicing architects whose buildings are used by millions of people throughout the world this down to earth easy to read text answers the fundamental question what is architecture and how do you perceive it the authors communicate their love of architecture and take the mystery out of buildings so you can learn how to enjoy their magic richly illustrated with 280 photographs and line drawings and summarized periodically with memorable aphorisms the text begins by defining the term architecture appreciation and shows why architecture is a personal enjoyable necessary experience and shows why architecture is a personal enjoyable necessary experience then the authors cover the basics of space form and total form the envelope is analyzed wall roof floor window structure materials connections style is described through such concepts as proportion scale and composition physical environment including site and light and psychological environment consisting of ownership symbolism and color are explored the book shows the impact of societal needs on architecture and the concept of economy is evaluated in terms of simplicity cost and energy time quality is defined in relation to history and technology the authors conclude by discussing the idea that design reconciles function form economy and time and then they review all the preceding chapters in a final brief wrap up this book will lead you to a new awareness of architecture and a new pleasure in your environment you can enjoy buildings every day of your life
