jim may's spinmeisters is the first commentary of its kind in the world of literature

it may likely become the definitive work describing message management or as he describes it in many helpful examples throughout the book the art of conditioning a narrative for the purpose of influencing others he demonstrates this in all facets of life including areas where you would obviously expect to find it such as advertising and politics for sure but also hidden subliminally in other everyday occurrences within government policies or lack thereof business religion and health influences as the subtitle might infer he explains that there is more than one way to say something and homage is paid to those artful few who are able to grasp a subject and restate its meaning in a twist to serve their particular purpose that is beyond the temporal abilities of mere mortals these masters of persuasion especially those who plot and plan specific effects are highly regarded in their fields he explains that we know them professionally as political consultants crisis management consultants marketing strategists religious proselytizers doctors psychiatrists business managers military planners and accountants among others also not to be excluded they can be found among friends relatives associates and occasionally in the mirror there are no sacrosanct subjects he addresses the foundations of religion government policy medical doctrine homophobia treatment of women and other important topics of our society each exemplifying the study of persuasion and its abilities to shape perception

the math mystic s guide to creative spirituality is unique provocative engaging and a masterpiece of philosophical and mystical exploration it offers gourmet treats for those with spiritual hunger a feast of innovative perspectives on building social collateral trust forgiveness resilience and intellectual desserts for the mathematically inclined user friendly for the non mathematician the book also provides a smorgasbord of resources for those who want to know more about the math deeply personal but also scholarly with an unprecedented use of mathematical metaphors this book will appeal to mathematicians scientists teachers philosophers religious educators and spiritual seekers of many persuasions a math professor before becoming a unitarian universalist minister the author has compiled herein a lifetime of creative study about the relationship between math and religion she has pioneered ways to use mathematics to help clarify such spiritual ideas as god fairness equality redemption and the nature of things in the process she coined the terms matheology and mathaphor introduced the notion of math sermons and has expanded the concept of moral math this exciting collection of essays with a little poetry as garnish uses math as a language to nourish the spiritual heart of our global society
