this book offers a new multidisciplinary way of thinking about the kingdom of god which fully recognises its sociological and spatial significance in performing boundaries of the sacred though spatial critical perspectives have been increasingly recognised as important across many disciplines the significance of non physical religious spaces and their correspondence to boundaries of the sacred has not been explored fully and never using the specific example of the kingdom of god wenell considers the diverse and sometimes contradictory articulation of the kingdom in the gospels as well as the ways that kingdom language frames contemporary ethical debates her study of the kingdom is located within the wider study of religion affording the opportunity to investigate connections between space belonging and the sacred wenell structures her investigation in four key areas that engage with the kingdom in different but theoretically interconnected ways she begins by setting out a theory of sacred space that is capable of including the kingdom and establishing key concepts such as boundary performance physical non physical spatiality spokespersons and controversy wenell then focuses on the synoptic gospels and the origins of the kingdom noting aspects of uncertainty as well as areas of agreement and controversy over boundaries of the sacred in these uniquely interrelated texts the third and fourth areas of investigation move into cultural reception considering instances where the kingdom is formative for identity and ethical relationships both in individual and wider group belonging terms specific reference is made to issues of ethical consuming and displacement placing the kingdom in dialogue with bauman s discussion of a society of consumers and arendt s notion of equitable co habitation of the earth

the consequences of disasters demographic planning and policy implications presents innovative multi disciplinary perspectives on how people and societies respond to and recover from sudden unexpected crisis events like natural disasters which impact tragically on the established patterns and structures of their lives through detailed empirical analysis

which employs both qualitative and quantitative research methodologies the twenty two chapters in this fine volume explore these critical issues chapters have a wide global range across both democratic and transforming governance systems which spotlight the many different ways in which different political jurisdictions respond to the demographic planning and policy implications of the natural disasters affecting their citizens the authors collectively provide insights into varying socio cultural and political disaster frameworks from china japan the usa new zealand myanmar indonesia taiwan iran the philippines and pakistan taking the conceptual and analytical lens of social capital family formation and migration patterns the authors employ comparative demographic anthropological and sociological approaches to present the human security contexts of natural disasters when they unexpectedly wreak havoc on human societies and the coping and response behaviors they adopt develop and use as survivors as they set about re building their lives over periods that can extend over several years this book provides many innovative insights which will be of value to disaster policy experts practitioners in the humanitarian field civil society and government sectors and researchers engaged in disaster recovery and reconstruction practice and research

the epistemology of testimony has experienced a growth in interest over the last twenty five years that has been matched by few if any other areas of philosophy testimony a philosophical introduction provides an epistemology of testimony that surveys this rapidly growing research area while incorporating a discussion of relevant empirical work from social and developmental psychology as well as from the interdisciplinary study of knowledge creation in groups the past decade has seen a number of scholarly monographs on the epistemology of testimony but there is a dearth of books that survey the current field this book fills that gap assessing the strengths and weaknesses of all major competing theories all chapters conclude with suggestions for further reading and discussion questions

this volume examines the economic system of the classic maya lowlands center of uxul campeche a secondary center under the political influence of calakmul a household based approach is used to review the urban economic system in which these households played a central role multiple lines of evidence are combined here using both quantitative and qualitative methods to study economic inequality settlement organization social integration power structures consumption production and exchange at the site the results suggest that the economy of uxul was largely based on market exchange and although wealth inequality

was high people along the socio economic spectrum had significant economic agency comparable quality of life and economic mobility was possible this study shows that the implementation of a multifaceted household based approach allows for a more complete understanding of the complex economy of an ancient urban center
