this book argues that the trade distorting effects of advantages associated with soes are more severe from an economic perspective and the behavior of soes after receiving advantages is of more concern compared to private owned enterprises poes the premise is that the existence of soes per se is not the essential problem rather the underlying problems are i the disproportionate granting of advantages to soes compared to poes and ii the behavior of soes once they receive advantages the book offers a systematic analysis focusing on the various advantages granted to soes and their subsequent behavior its detailed analysis reveals the inadequacy of current wto rules and is complemented by a number of concrete proposals

this text integrates trade theory and open economy macroeconomics with straightforward diagrams and numerous examples the emphasis is on the gains from competitive trade and the limits of policy economics began with the political debate over import tariffs in england tariffs lead to net economic losses except in a few circumstances and would then lead to retaliation consumers and firms importing intermediate inputs lose due to tariffs as do export industries when other countries retaliate with tariffs of their own import competing industries and the government gain from tariffs the present approach integrates theories of market behavior and general equilibrium on the microeconomic side exchange rate theory bridges from trade theory into balance of payments theory in the final chapter on open economy macroeconomics the limits of monetary and fiscal policies due to the competitive foreign exchange market is the focus theoretical diagrams present the theory without assuming intermediate theory numerous problems for each section build confidence in applying the theory boxed examples illustrate the importance of theory each chapter includes a concise mathematical appendix that should appeal to students with interest and to instructors preparing for class

this volume documents the links among trade colonialism and forms of representation examining trade in commodities as

diverse as illicit drugs liquor bananas disease tourism adventure fiction and modern aboriginal art as well as cultural exchanges in politics medicine and literature the contributors contest the view of trade as an equaliser of cultures places and peoples promoted by some modern economists demonstrating instead the ways in which commerce has created and exacerbated differences of power
