diplomats politicians and activists alike have long laboured under the assumption that a two state solution is the only path to peace between the israelis and the palestinians but as this conflict continues unabated and violence and instability deepen it seems that the ideal of two states coexisting alongside each other and the ever elusive goal of peace slip further from reach the failure of the two state solution examines the impasse in the israel palestine conflict exploring the reasons behind the breakdown of attempts to establish a meaningful palestinian state this book therefore points to another until recently unthinkable option a single bi national state in israel palestine with all inhabitants sharing in equal rights and citizenship regardless of ethnicity or faith hani a faris has drawn together a wide ranging and in depth analysis of the

historical and current situation in israel palestine by analysing the history of the conflict in israel palestine and its numerous peace initiatives this book demonstrates how the current deadlock has been reached with a nascent palestinian state hampered by israeli security policy and internal political divisions and the continuing expansion of the israeli settlements in the west bank it is argued here that the viability of the two state solution seems to have run its course and so highlights the one state solution as an option and debates and develops the organisational steps and strategies on a local and international level that would enable the construction of a bi national state with scholars from the us europe the arab world and israel analysing the possibility of a one state solution and the shortcomings of the two state track this is an important and ground breaking book for students of politics international relations peace studies and middle east studies and all interested in the resolution of this seemingly intractable conflict

racism is still very prevalent and pervasive in all aspects of the p 12 educational experience in the united states far too many teachers and administrators continue to respond to this challenge by applying colorblind perspectives and approaches this edited volume provides a broad and comprehensive critique of colorblindness in various educational contexts in an attempt to advocate for a more color conscious approach to education this book deals with a wide range of issues related to teaching learning curriculum creativity assessment discipline implicit bias and teacher education there are three distinct features that make this book so important and relevant given the current social and racial climate in u s schools today first each chapter in this book draws from a plethora of different theoretical perspectives related to race and racism in this sense readers are equipped with variety of robust theoretical perspectives to better understand this complicated issue of racism in schools second this book communicates issues of race and racism through multiple voices unlike other books on race and racism where the central voice is that of a researcher or scholar this book centralizes the voices and perspectives of researchers teachers and teacher educators alike as a result readers are better able to understand issues of race and racism in schools from a more nuanced perspective finally unlike other books related to race and racism in schools this book provides readers with practical strategies for combating racism in their respective educational contexts

in kevin macdonald s metaphysical failure jonas e alexis offers a thoroughly researched nuanced and lucid analysis of kevin macdonald s thought in particular macdonald s belief in biological and philosophical darwinism it is an important book that fills a critical gap in the literature on the history of revolutionary movements and darwinism both in the west and in asia it is also a study that adds many significant strands to the densely interwoven history of ideas such as malthusianism and eugenics alexis s book engages debates in the history of ideas going back to madison grant and beyond and the history of darwinism it challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations powerfully reasoned and backed with a startling array of documented studies kevin macdonald s metaphysical failure presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly darwin s ardent enthusiasts and devoted disciples the book presents eye opening insights into the historical development of darwin s ideological project and how that project ended up crippling darwin s intellectual children from richard dawkins francis crick james watson daniel dennett ernst mayr and e o wilson to kevin macdonald richard spencer david duke and jared taylor

as middle school math teachers shift to the common core state standards the question remains what do the

standards actually look like in the classroom this book answers that question by taking you inside of real common core classrooms across the country you ll see how exemplary teachers are meeting the new requirements and engaging students in math through these detailed examples of effective instruction you will uncover how to bring the standards to life in your own classroom special features a clear explanation of the big shifts happening in the classroom as a result of the common core state standards real examples of how exemplary teachers are meeting the ccss by teaching problem solving for different learning styles proportional reasoning the pythagorean theorem measurements and more a detailed analysis of each example to help you understand why it is effective and how you can try it with your own students practical ready to use tools you can take back to your classroom including unit plans and classroom handouts
