this book is concerned with the figure of the female performer in nineteenth century fiction it explores the attitudes of henry james nathaniel hawthorne and emile zola towards women s appearances on political daises and theatrical stages literature as a cultural force can either boost women s participation in public life or bolster the patriarchal ideology the book verifies henry james s feminist ideology that lies behind the positive representation of women s political activism and acting as two different modes of performance through a comparative study between him and two of his contemporary novelists it reflects the clash of opinions among nineteenth century american and french authors on the issue of women s public manifestation as caught between the spectacular and the political while some writers have deemed it an exhibitionist demeanour others have considered it a commitment to the feminist project the first section shows how a feminist reading in the history of european and american female performers as emerging figures in the nineteenth century can help to understand the position of the figure in the literary works of the period nathaniel hawthorne is shown to be an author who holds the same feminist temperament as james through his portrayal of a talented political rhetorician in his novel the blithedale romance which is compared to james s the bostonians in the second section the final part conducts a study in contrasts between james s supportive rendering of the actress in the tragic muse and emile zola s derogatory stereotyping of the female performer as a prostitute in his novel nana

i read this book based on my reading of general walker and the murder of president kennedy by dr jeffrey caulfield as portrayed in the caulfield book dombrowski was in the eye of the segregationist hurricane which swept the south in the 1950 s and 1960 s following the brown decision by the supreme court this book gives a different perspective on the civil rights movement in the south such classics as where rebels roost by susan klopper and gothic politics in the deep south by robert sherrill tend to give a condescending attitude toward the south by contrast dombrowski describes a different version of events a version which shows that the behind the scenes activities for southern liberalization were very methodical and proceeded at a businesslike pace and with very steady progress all the way from the new deal right up until the more radical 1970 s the book makes a case that if there were actually such a thing as the new south then dombrowski had a very strong case for its paternity dombrowski as many may already know had close personal links to justice hugo

black of alabama who was himself a pioneer of a more open minded attitude to the race problem in the south includes decisions of the supreme courts of appeals of virginia and west virginia supreme courts of north carolina south carolina and georgia and may aug 1907 jan mar 1939 the court of appeals of georgia
