this is a collection of essays focusing on conventions of change in the arts philosophy and literature

from thomas more onwards writers of utopias have constructed alternative models of society as a way of commenting critically on existing social orders in the utopian alternative the sex gender system of the contemporary society may be either reproduced or radically re organised reading utopian writing as a dialogue between reality and possibility this study examines the relationship between historical sex gender systems and those envisioned by utopian texts surveying a broad range of utopian writing from the nineteenth and twentieth centuries including huxley zamyatin wedekind hauptmann and charlotte perkins gilman this book reveals the variety and complexity of approaches to re arranging gender and locates these re arrangements within contemporary debates on sex and reproduction masculinity and femininity desire taboo and family structure these issues occupy a position of central importance in the dialogue between utopian imagination and anti utopian thought which culminates in the great dystopias of the twentieth century and the postmodern re invention of utopia

a collection of the writing of the highly influential architect juhani pallasmaa presented in short easily accessible and condensed ideas ideal for students juhani pallasmaa is one of finland s most distinguished architects and architectural thinkers publishing around 60 books and several hundred essays and shorter pieces over his career his influential works have inspired undergraduate and postgraduate students of architecture and related disciplines for decades in this compilation of excerpts of his writing readers can discover his key concepts and thoughts in one easily accessible comprehensive volume inseminations seeds for architectural thought is a delightful collection of thoughtful ideas and compositions that float between academic essay and philosophical reflection wide in scope it offers entries covering atmospheres biophilic

beauty embodied understanding imperfection light and shadow newness and nowness nostalgia phenomenology of architecture sensory thought silence time and eternity uncertainty and much more makes the wider work of pallasmaa accessible to students across the globe introducing them to his key concepts and thoughts exposes students to a broad range of issues on which pallasmaa has a view features an alphabetized structure that makes serendipitous discovery or linking of concepts more likely presents material in short condensed manner that can be easily digested by students inseminal seeds for architectural thought will appeal to undergraduate students in architecture design urban studies and related disciplines worldwide

this volume brings together evidence for the cognitive social and technological foundations necessary for the development of hafting or the addition of handles and shafts to previously hand held tools which made the tools not only more efficient but improved their makers chances of survival

leading neuroscientists and architects explore how the built environment affects our behavior thoughts emotions and well being although we spend more than ninety percent of our lives inside buildings we understand very little about how the built environment affects our behavior thoughts emotions and well being we are biological beings whose senses and neural systems have developed over millions of years it stands to reason that research in the life sciences particularly neuroscience can offer compelling insights into the ways our buildings shape our interactions with the world this expanded understanding can help architects design buildings that support both mind and body in mind in architecture leading thinkers from architecture and other disciplines including neuroscience cognitive science psychiatry and philosophy explore what architecture and neuroscience can learn from each other they offer historical context examine the implications for current architectural practice and education and imagine a neuroscientifically informed architecture of the future architecture is late in discovering the richness of neuroscientific research as scientists were finding evidence for the bodily basis of mind and meaning architecture was caught up in convoluted cerebral games that denied emotional and bodily reality altogether this volume maps the extraordinary opportunity that engagement with cutting edge neuroscience offers present day architects contributors thomas d albright michael arbib john paul eberhard melissa farling vittorio gallese alessandro gattara mark l johnson harry francis mallgrave iain mcgilchrist juhani pallasmaa alberto pérez gómez sarah robinson

though fragments of the sutra were translated in europe as early as 1723 no complete translation has been attempted so far in 1936 r tajima translated its first chapter in his etude sur le mahavairocana sutra dainichikyo and gave a resume of the whole text prof chikyo yamamoto has taken courage of presenting an english translation of the complete chinese text of the sutra comprising 36 chapters hon in seven scrolls kwan

part of a series of technically informative monographs embracing a broad spectrum of internationally renowned buildings this work deals with melsetter house and includes a comprehensive set of technical drawings and working details

the embodied image the embodied image imagination and imagery in architecture juhani pallasmaa all artistic and architectural effects are evoked mediated and experienced through poeticised images these images are embodied and lived experiences that take place in the flesh of the world becoming part of us at the same time that we unconsciously project aspects of ourselves on to a conceived space object or event artistic images have a life and reality of their own and they develop through unexpected associations rather than rational and causal logic

images are usually thought of as retinal pictures but profound poetic images are multi sensory and they address us in an embodied and emotive manner architecture is usually analysed and taught as a discipline that articulates space and geometry but the mental impact of architecture arises significantly from its image quality that integrates the various aspects and dimensions of experience into a singular internalised and remembered entity the material reality is fused with our mental and imaginative realm the book is organised into five main parts that look at in turn the image in contemporary culture language thought and the image the many faces of the image the poetic image and finally the architectural image the embodied image is illustrated with over sixty images in pairs which are diverse in subject they range from scientific images to historic artistic and architectural masterpieces artworks span michelangelo and vermeer to gordon matta clark and architecture takes in modern masters such as mies van der rohe le corbusier and alvar aalto as well as significant contemporary works by steven holl and daniel libeskind

this is a book about the natural history of human nature it is not a book about philosophy for philosophers it is a plain and straightforward statement for ordinary people of what another very ordinary sort of man who has considerable experience with the mechanisms of human life and how they work thinks about it all we all want to understand human nature better because it is our nature the better we understand it the more likely we are to get along with ourselves our neighbors and our surroundings in general we want to make life more worth while to get as much out of it as we can and to put as much into it as we can to make a better living and to have as much fun doing it as possible we need to know how we live what the apparatus of life is and how it works in order to make a better job of it preface

contemporary biographies of galilei emphasize in several places that he was a masterful draughtsman in fact galilei studied at the art academy which is where his friendship with ludovico cigoli developed who later became the official court artist the book focuses on this formative effect it tracks galilei s trust in the epistemological strength of drawings it also looks at galilei s activities in the world of art and his reflections on art theory ending with an appreciation of his fame after all he was revered as a rebirth of michelangelo for the first time this publication collects all aspects of the appreciation of galilei as an artist contemplating his art not only as another facet of his activities but as an essential element of his research

summer loving next in line as ceo of his family s international luxury resort empire liam westbrook didn t make his way to the top playing it safe so when the fast living british bachelor spies an exotic beauty under a smoldering north carolina moon he makes a scandalous proposal the night culminates in an all consuming passion that leaves them both burning for more liam knows he can t just walk away but after a devastating past betrayal can he trust where his heart is leading him maya alvarez s two young daughters are her entire world but when she ends up alone on her birthday the divorced single mother does something totally out of character she accepts an invitation that leads to a hot summer fling with a seductive stranger who makes her feel bold and desirable again when maya must return to the real world will liam and their pleasure fueled fantasy end up as only an affair to remember

a continuation of the lives of hamilton veneering and his children who first lived in our mutual friend by charles dickens
