collected here for the first time are essays by one of photography s outstanding critics and historians jussim investigates the meaning of images incorporating postmodern deconstructionist and feminist viewpoints

the importance of vision and visual arts such as painting theatre and sculpture in marcel proust s *la recherche du temps perdu* has long been affirmed another significant system of visual representation in the novel is photography proust appropriated photography as a practice with its own distinctive characteristics which could inform his writing about the processes of perception and memory through close textual analysis of scenes where photography is experienced or observed as a practice and scenes where photography is written into the body of the text aine larkin offers an invigorating new study that sheds genuinely new light on the presence of photographic motifs in proust s novel and the subtlety of proust s engagement with this modern imaging system in his work

a new edition of john berger and jean mohr s classic investigation into the nature of photography and what makes it so different from other art forms one of the world s most influential art critics berger sees clearly with fresh surprise yet profound understanding washington times in one of the most eloquent accounts of photography ever devised the writer john berger and the photographer jean mohr set out to understand the fundamental

nature of photography and how it makes its impact asking a range of questions what is a photograph what do photographs mean how can they be used they give their answers in terms of a photograph as a meeting place where the interests of the photographer the photographed the viewer and those who are using the photography are often contradictory from these beginnings they develop a theory of photography that has at its centre the form s essential ambiguity arguing that photography is totally unlike a film and has nothing to do with reportage rather it constitutes another way of telling the unique combination of critic and photographer results in a work that moves beyond the landmarks established by walter benjamin roland barthes and susan sontag to establish a new theory of photography this unique combination of words and pictures includes 230 photographs by jean mohr

peter c bunnell has been a major force in shaping the discourse about photography this collection of texts selected from work published throughout bunnell s career marks his significant contribution to the field he has helped to establish in each of the thirty four essays each devoted to individual predominantly american photographers and three key galleries bunnell brings to bear his distinctive sensibility and insight while encouraging the reader to see previously overlooked aspects of the images he discusses so eloquently he also provides an invaluable historical context for the photographers and their work bunnell offers a unique personal perspective on the world of art photography documenting its journey as it morphed from a small group of practitioners to the supercharged international marketplace of today

this is a comprehensive collection of twentieth century writings on photography its production its uses and effects encompassing essays by photographers including edward weston and laslo moholy nagy and key thinkers from walter benjamin to roland barthes and susan sontag the reader traces the development of ideas about photography exploring issues such as identity consumption the gaze and digital technology

28 essays on photography and the creative life by brooks jensen editor of lenswork

each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art science social science travel war fashion the mass media and individual practitioners back cover

media philosopher vilém flusser proposed a revolutionary new way of thinking about photography an analysis of the medium in terms of aesthetics science and politics provided him with new ways of understanding both the cultural crises of the past and the new social forms nascent within them flusser showed how the transformation of textual into visual culture from the linearity of history into the two dimensionality of magic and of industrial into post industrial society from work into leisure went hand in hand and how photography allows us to read and interpret these changes with particular clarity

photography is not dying and has not died it has been an ever changing medium since its earliest days and while near obsession with the technology of the day may have defined photography over the course of its existence photography is so much more than hardware and software photography is communication whether chemical or digital tangible or ephemeral in form photography beyond technique is a compelling selection of essays and images that reveal the thoughts and methods of some of today s most exciting contemporary photographers these artists employ alternative historical or handmade processes and techniques and they share a comprehensive view of the medium that the choice of photographic process is just as important as the selection of subjects while other books concentrate solely on process or theory or artistic intent none focus on photography in which these decisions are considered inseparable these 20 essays originally presented at the annual f295 symposium and seminar series provide a thought provoking read for anyone interested in photography as an art form and as a medium through which to view the world includes looking backward seeing forward reframing
