in the most basic terms planetary conjunction occurs when two or more planets occupy the same house but what happens when planets are conjunct in a house they define your life in a nutshell a conjunction can be benefic or malefic depending upon several factors such as the nature of the planets involved their relationship with each other and the house sign they are placed in the strength of the planet is also taken into account like whether the planet is combust retrograde or direct there can be as many as 5 or 6 planets in the same house but such is a rare occurrence these are in fact the most difficult horoscopes to interpret care must be taken in determining how the planets affect each other there could be a yoga or a planetary combination forming due to the conjunction but if a malefic planet is operational in the same house the yoga may not fructify for the native on the other hand when multiple weak or malefic planets get together in a house presence of a benefic could balance the situation nevertheless its power would be low due to malefic influence so the horoscope can only be considered average conjunction of multiple planets in one house indicates the focus area of your life the house where most of the planets are placed nevertheless there could be some misbalance in the personality of the native due to the strong pull of a single house the lord of house where conjunction of planets takes place is also under the spotlight if it is positioned well it casts a benefic influence upon the native it tends to make other planets strong too however if it is weakly posited or under malefic influence it may only deem negative results and may worsen the situation

dear reader the whole process of spiritual practice during the initial steps consists of neutralising karma and gaining poise the inequalities of past karma manifest as the inequalities of the mentality personality and behaviour of man behaviour is only a response of the person to environment in terms of his own habit or past karma this response also forms the basis of his future karma every step is subject to correction until poise is gained poise in food expression and behaviour is the path of yoga according to the bhagavad gita every planet in every sign in house represents our past life karma to understand that first we need to understand the planets in astrology this book is all about describing planets in astrology to give indepth knowledge and wisdom to the person to experience and learn fundamentals of astrology regards saket shah

understanding planets their effects each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood

all planets in solar system are revolving around sun in a predefined pattern that shows how we know when to wake up and when to go to bed planets however govern a lot more than just occurrence of day and night or eclipses and tides planets have a direct impact on us despite being several light years away while the position of planets does not dictate our everyday actions it does have a profound and close influence on our life and destiny understanding planets their effects much like nobody forces moon to orbit earth humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally the movement of planets affects our actions as a result much like our actions affect the environment human body is in fact made of elements present in the universe the structure of our brain is very much similar to the structure of universe everything that happens to the universe happens to us our own magnetic field aligns with the earth's magnetic field each object in the universe be it humans earth planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood the outer planets move slowly in the sky some even take as much as 25 years to change a sign these include jupiter saturn rahu and ketu and these planets have a more profound and long lasting impact on us unlike say moon astrological significance of planets every planet rules a zodiac sign except rahu and ketu which are in fact not actual planets but two reference points in the sky rahu and ketu are the points where the paths of the sun and moon intersect with each other rahu is the north lunar node the head of the dragon as per mythology and ketu is the south lunar node the qualities of the zodiac signs somewhat align with the characteristics of the planets for instance impulsive and active aries is ruled by fiery mars dreamy pisces is ruled by spiritual jupiter emotional cancer is ruled by motherly moon while confident leo is ruled by masculine sun

dear reader we always wonder that every sign in vedic astrology has different meaning and results so how does the planet sitting in it will behave so in this book i am describing how sun will give results in different zodiac signs in most possible and descriptive way the planet behavior changes along with the sign it sits in and give different results every sign itself is a mystery and planet sitting in sign becomes more mysterious and gives results in very different pattern planet is nothing but a cosmic energy which in particular location in zodiac during our birth impacts our entire life the way we think and the way we behave and also controls our emotions the glands in our brain reacts to this cosmic energy and creates a certain characteristic in our life pattern and day to day life and we can understand this by understanding our horoscope and by checking which sign the planet is sitting and how it impacts our thinking and life i hope you will love this book and enjoy reading regards saket shah

this book presents the ancient hindu astrology in its occult and esoteric aspects traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals the ancient revelations have been restated here to meet contemporary requirements the ancient seers presented vedic astrology under various assumptions and in allegorical and symbolic languages they assumed polydimensional extension of human consciousness which was closely related with planetary impulses apart from the general approach to this ancient science the study presents in depth the astrological description of the nature of man it also provides deeper implications of various planetary combinations advanced practitioners as well as general readers will find the book informative illuminating and highly rewarding

the chronicles of hindu astrology the concept of overlapping is a detailed research work on imposed planetary influences to predict our life events planetary influence is not a new word in the language of astrology generally we judge a native's horoscope with the individual's natal chart and dasha system we compute all the planetary influences and associations present in the specific janma kundali but practically each and every event of a native's life gets influenced by the activities of his environment and the people around him specially some qualities like motivation demoralization moral support and financial support from others may create a huge change in the lifestyle of a native also it is observed that sometimes some special events like marriage child birth may create huge change in native's fate overlapping is a very significant but simple way to understand the mutual effects of various surrounding charts over the main natal chart of a native exactly which happens in calculation of the effects of transit the transitional planets introduce beneficial or malefic effects depending upon their relative position with respect to the natal planets a beneficial and friendly planet introduces more strength and positivity when passing over the beneficial places like trikona any person carries the properties and effects of planetary placements in his or her birth chart when he or she makes a close relationship with another person these effects create some influence on that person these effects are called overlapping concept of overlapping theory is a new idea in predictive astrology which is based on traditional and general vedic astrological concepts and ideas the rules and functionalities of parasharian astrology adopted here but this is totally a new thought and very much effective for prediction and remedial measures without any external remedy

astrology is the study that everything that exists on earth has a meaningful purpose and we are not living in isolation in this universe this knowledge is for those who want to understand the intricacies of human life serious astrology requires in depth study of texts scriptures and some kind of intuition as predictions cannot be based only on mathematical calculations astrology believes that everything is controlled by celestial bodies otherwise predictions are completely impossible this human body is part of existence and the movement of celestial bodies affects us it is a science as well as art time is a great teacher but it also throws dust on what is not prevalent or what we leave behind every now and then we need to hone our skills to stay sharp similarly the knowledge which gets disappears now needs to be uncovered and sharpened at present there is a need for a new way of interpretation that is suitable for the changing world and new environment there is a need for relevant examples which are suitable for the present generation this book explains astrological principles with a new set of examples in the changing environment so that the present generation can understand the hidden meaning behind the ancient texts
