this concise easy to use book addresses ocular and medical emergencies most often seen and managed by optometrists each emergency includes a brief overview of the condition recommended evaluation potential complications and appropriate management the text is supplemented by helpful flow charts detailing step by step patient care and sample examination forms to help clinicians avoid errors of omission

there were about 12.7 million visits to accident and emergency a&e services in the last year and in around a fifth of these patients were admitted to hospital a&e departments are only one in a variety of nhs emergency care providers which include ambulance services gps primary care trusts out of hours services nhs direct and open access minor injury centres this nao report examines the extent of progress made towards achieving the key target for maximum total time spent waiting for a&e services as well as with the wider modernisation of emergency care the report s conclusions include that given the high level of demand there has been a significant and sustained progress towards reducing waiting times in a&e departments and improving the patient s experience largely due to improved working practices and increased local investment however there is further room for

improvement in the case of patients with more complex needs such as older people and those with mental health needs and regional variations still exist with the performance of the worst performing trusts still some way behind further major improvements will depend on tackling the remaining bottlenecks and barriers to modernisation within wider emergency care services the establishment of local emergency care networks is highlighted as a promising development as a means to secure greater emergency care service integration and joint working
