tying together work on a number of languages and linguistic varieties in different locales this book provides students and researchers with a convenient unified overview of variationist analysis in linguistics variation in linguistic systems takes a theoretical and quantitative approach to the study of variation in language focusing on the role of language internal constraints on variation and the relation of linguistic variation to linguistic theory it introduces the basic concepts of variationist linguistics and includes key discussions on language change language contact the different types of variation multivariate analysis with goldvarb and variation in sound and grammatical systems here is an ideal textbook for an introductory course on variation as well as a useful resource for scholars with some background in linguistics who are interested in the study of language variation and its relation to the wider field of linguistics

this book provides deeper understanding of the aging process of the likely differences

between the lives of past and future generations and of the potential for optimizing these future lives from cross cultural and cross temporal perspectives

diploma thesis from the year 2006 in the subject business economics trade and distribution grade 1 6 university of cooperative education ravenburg language english abstract the situation of constantly growing and increasingly fast developments in society economy and politics during the past years probably will not change in the next decades one of the greatest and most significant trends in the society of industrial countries is the demographic change many western nations are experiencing a radically demographic revolution in their history which is about to change the age structure of the countries drastically the fact of an increasing life expectancy is enhanced by a concurrently decreasing birth rate and leads to an obsolescence of the society and therefore to a shift of the proportion between the generations from younger to older people only in a few years for the first time germany's population will consist of more old people than of younger ones in 2050 more than one third of the population will be over 60 years and only 16 under 20 years old whereas 100 years before in 1950 just 14 6 were between 60 and 80 years and 30 4 of the inhabitants under 20 years old in consequence of this mentioned development the main regarded issues are analyzing the therewith connected shift of the value system of the older people and priority of rectification of the marketing concepts in retail based on the new circumstances shift of the value system in conjunction with the rising expectancy of life the calendar age is not an appropriate criterion for splitting up the generations anymore as in the past the age between 50 and 55 separated the older from the younger persons nowadays it is the functional age that is deciding today's generation 50plus and their values and needs are greatly varying from those of the people aged 50 in the past the mental attitudes and wishes of the so called best agers are much closer to those of a 45 year old than a 75 year old person it turns out that older people are more active autonomous wear more jeans and drink more coke than their antecessors a significant change has taken place in the last years and decades as the expected older generation does not consist of a homogeneous group but has increasingly various feelings thoughts and point of views about the way of living depending not only on the eventful past of yesterday's older generation like war hunger and diseases their behavior and attitudes greatly differs from those of the seniors of today

this book examines the basic tenets of nation nationalism and citizenship it explores the relevance of the nation state to human freedom and flourishing as well as the concept of citizenship that it implies in contrast to that of the ancient polis and the global community the volume focusses on the shifting notions of various political concepts over time to present a systematic understanding of core concepts such as polis nation and state from antiquity to the present it includes contributions that analyze ancient and modern thought and sections that address postmodern and contemporary thinkers including aristotle cicero hobbes locke rousseau toqueville nietzsche arendt weil grant and manent a comprehensive handbook to introductory politics this book will be invaluable to students and teachers of political science especially political theory political philosophy democracy political participation and international relations theory

essential genetics and genomics is the ideal textbook for the shorter less comprehensive genetics course it presents carefully chosen topics that provide a solid foundation to the basic understanding of gene mutation expression and regulation

defined less by geography than by demographic character block kansas in many ways exemplifies the prevalent yet seldom scrutinized ethnic religion based community of the rural midwest physically small the town sprang up around four corners formed by

crossroads spiritually strong and cohesive it became the educational and cultural center for generations of german lutheran families in this book carol coburn analyzes the powerful combination of those ethnic and religious institutions that effectively resisted assimilation for nearly 80 years only to succumb to the influences of the outside world during the 1930s and 1940s emphasizing the formal and informal education provided by the church school and family she examines the total process of how values identities and all aspects of culture were transmitted from generation to generation

scholarly work with lengthy entries followed by references for further reading many illustrations indexed
