based on detailed excavation data the author reconstructs the paleography of the santa barbara coast ca 8500 years ago makes comparisons to other early california sites and applies his findings to current theories of hunter gatherers and coastal environments with an emphasis on paleographic reconstructions site formation processes chronological studies and integrated faunal analyses the work will be of interest to a wide range of scholars working in shell middens hunter gatherer ecology geoarchaeology and coatal or aquatic adaptations

this volume is the first to bring together a number of studies on the early holocene of the california coast ca 10 000 to 6600 bp erlandson and colten have assembled contributions that may be of interest to a broad spectrum of scholars whose research pertains to any of the following early sites in the americas coastal adaptations hunter gatherer adaptations general pacific coast prehistory and the specific history of research on pre 6600 bp occupations of coastal california

nobody wanted to go at first california was practically uninhabited except for the indians those first residents had to be paid to go and there were few takers the first years were hard and supplies scarce still those early families managed to grow enough foodstuffs to plant a firm hold in the land it was truly a cultural melding from the first of indian spanish

and mexican people and a few others then in 1848 california joined the united states that move and the lure of gold nearby gave the city the boost it needed newcomers soon realized the land was good fruits and flowers were abundant and the climate mild it was the kind of place men dreamed of and many followed their dreams they called it the garden city like all cities it had its problems but its leaders were both dreamers and doers they anticipated prepared and planned the growth from a struggling outpost to a complex cultural and economic society has been a major evolution and a tribute to those who made their dreams and the city of san jose come true san jose california s first city california s first city san jose represents a microcosm of the development of the golden state s urban centers over the last two centuries the garden city has occupied an important position as california s first civilian settlement first state capital leading agricultural center and nucleus of the space age electronics industry as narrated by the distinguished historian edwin a beilharz san jose was founded as a planned civil settlement in 1777 governor felipe de neve established the pueblo in the lush santa clara valley to provide a reliable food source for the growing yet isolated colony of alta california it soon emerged as a major producer of cereal grains orchard fruit and cattle during the spanish and mexican era san jose also served as a social center for the nearby ranchos and attracted such influential families as peralta suriol castro and vasquez by the late 1830s and 1840s foreign visitors eyed california with envy several saw the promise of the verdant valley political upheavals in mexico made possible the easy assimilation of non mexican residents with the conclusion of the mexican war and the treaty of guadalupe hidalgo in 1848 san lose and california became a formal possession of the united states donald o demers takes up the story with the establishment of american rule in california the discovery of gold on the american river changed the entire complexion of california and quickly led to admission as a state in 1850 as the result of a strong lobbying effort the newly formed state government selected san jose as its first capital political infighting ensued and the state legislature moved the capital to benecia after only one year despite this blow the city on the guadalupe river continued to expand capitalizing on its mild climate abundant water supply proximity to san francisco bay and fertility of the santa clara valley confusion over mexican land grants also opened vast tracts of land for development san jose took prominence in wine production fruit raising silk culture nurseries and agricultural experimentation the advent of the railroad made possible the establishment of a packing and shipping economy the pueblo was soon transformed from a collection of crude adobes to one of frame houses brick business blocks schools churches theaters and parks replete with horsecars traveling

along tree lined streets after the 1906 earthquake san jose entered the twentieth century as a typical american city it experienced the anxiety of world war 1 jubilation of the 1920s subterfuge of prohibition and the great depression during this time too sensational events rocked the city the tragic hart kidnapping and the lynchings at st lames park world war ll shifted the socio economic base from a land of gardens and orchards to that of a defense production center the burgeoning population of defense workers engineers and scientists created a new force for continued development excerpt from edwin a beilharz and donald o demers jr san jose california s first city ibooks

children are already learning at birth and they develop and learn at a rapid pace in their early years this provides a critical foundation for lifelong progress and the adults who provide for the care and the education of young children bear a great responsibility for their health development and learning despite the fact that they share the same objective to nurture young children and secure their future success the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well transforming the workforce for children birth through age 8 explores the science of child development particularly looking at implications for the professionals who work with children this report examines the current capacities and practices of the workforce the settings in which they work the policies and infrastructure that set qualifications and provide professional learning and the government agencies and other funders who support and oversee these systems this book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals these detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning shared knowledge and competencies for care and education professionals and principles for effective professional learning young children thrive and learn best when they have secure positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress transforming the workforce for children birth through age 8 offers guidance on system changes to improve the quality of professional practice specific actions to improve professional learning systems and workforce development and research to continue to build the knowledge base in ways that will directly advance and inform future actions the recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive and ultimately improve outcomes for children
