master s thesis from the year 2014 in the subject business economics trade and distribution grade 1 3 university witten herdecke language english abstract according to the south african b2c e commerce report 2012 south africa was already in 2011 the fifth largest country in africa in terms of the number of internet users today in 2014 there are approximately 12 5 million south african internet users since several years the e commerce sector is facing a boom in south africa however not everybody seems to profit from or participate in this boom economically and socially south africa is still deeply divided the inequality within the population the distance between rich and poor is extreme the richest 20 percent of the population account for almost 70 percent of total income the share of the poorest 20 percent is just under three percent almost a third 31 9 of the population lives on the equivalent of less than 2 dollars a day around seven million people are considered long term unemployed with no job prospects especially those living in informal settlements the so called townships the social and economic inequality is a big problem for the country of south africa e commerce has the potential to resolve this problem as it is booming and companies plan to extend their businesses as well as their employee numbers the idea is to train people from the townships in order to get them to work in the e commerce business interesting for this thesis are those e commerce companies with big storage halls as they are the ones who might be in need of untrained employees of the townships jobs could be needed in basic positions such as picking and packing quality control and customer services in big warehouses supposed it would be actually possible to use training initiatives and programs in the form of cooperations of e commerce companies and township ngo s resulting in diminishing unemployment and leading to permitting more people participate in the boom of e commerce the south african economy and its society as a whole would

gain a tremendous benefit the research question in this master thesis is interlinking the existing economic boom of e commerce with the high unemployment rate in the townships does the fast growing e commerce in south africa have an effect on the high unemployment rate in the townships in the quest for an answer to this question attention is paid to two related questions as well do the lowest social classes feel an improvement in their living standards after being hired by an e commerce business

tourism marketing has long been considered as a branch of traditional marketing however in recent years tourism marketing has gone through fundamental changes the pursuit of global strategies based on strategic alliances the breakdown of commercial borders and advances in new technology have all facilitated the commercialisation of tourism products this book sets out to examine the changes shaping the international marketing of tourism and travel the book begins in defining the role of international marketing in tourism and describes the strategic marketing process from analysis and strategy formulation to implementation techniques it provides the marketing theory for the rest of the text part two focuses on specific issues that are currently influencing tourism marketing as such it explains how technology is affecting the way tourism firms operate the impact and influence of environmental awareness human resource strategy and service quality on tourism marketing finally it presents the strategic responses of each of the sub sectors hospitality air transport tour operation travel agency and the tourism destination to the pressures of the changing tourism industry the international marketing of travel and tourism is aimed at final year undergraduate and postgraduate students of tourism providing a strategic approach to marketing within this growing sector

this is the ebook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book this comprehensive market leading text emphasizes the three major driving forces behind e commerce technology change business development and social issues to provide a coherent conceptual framework for understanding the field
