nowadays for a product or services to become competitive in the market it has to have quality consumers prefer quality products and services even if they will have to pay a higher price low quality products and services may cost lower but the

products are not to customers satisfactions and the services does not match customers expectation in this regard the researchers made a study on the quality of service that a car service company provides the study evolves on the service quality of nissan motors quezon avenue it centers on the opinions of customers prior to and after the service both customers expectations and perceptions include the five dimensions of tangibles reliability responsiveness assurance and empathy the discrepancy in the service quality of nissan motors is determined by how the customers view the service they anticipate to receive and what the customers actually see and feel about the kind of service they received the behavior of the customers has shown that no conflict exists with what nissan motors is providing their customers and what the customers were expecting this is so because nissan motors commitment to excellence wants to provide car owners with quality service furthermore the results of the study has shown that customers perception of the service at nissan motors is beyond what is expected normally recommendations are made to seal the gap between expectations and perceptions however in this study recommendations are made as an addition to the existing service of nissan motors to enhance the performance of its car service
