since its publication in 1995 the german technical dictionary has established itself as the definitive resource for anyone who needs to translate technical documents between german and english this new edition has been substantially

revised to reflect the technological environment of the twenty first century the revised edition contains over 75 000 entries of which over 5 000 are new with many new entries in the areas of the internet and telecommunications bio technology and the new genetics new developments in health technology throughout this dictionary continues to benefit from the features that made the first edition so valuable including accurate translations in british and american english and an attractive durable and easy to use layout

this book explores how in the wake of the anthropocene the growing call for urgent decarbonisation and accelerated energy transitions might have unintended consequences for energy poverty justice and democracy especially in the global south dilemmas of energy transitions in the global south brings together theoretical and empirical contributions focused on rethinking energy transitions conceptually from and for the global south and highlights issues of justice and inclusivity it argues that while urgency is critical for energy transitions in a climate changed world we must be wary of conflating goals and processes and enquire what urgency means for due process drawing from a range of authors with expertise spanning environmental justice design theory ethics of technology conflict and gender it examines case studies from countries including bolivia sri lanka india the gambia and lebanon in order to expand our understanding of what energy transitions are and how just energy transitions can be done in different parts of the world overall driven by a postcolonial and decolonial sensibility this book brings to the fore new concepts and ideas to help balance the demands of justice and urgency to flag relevant but often overlooked issues and to provide new pathways forward this volume will be of great interest to students and scholars of energy transitions environmental justice climate change and developing countries the open access version of this book available at taylorfrancis.com/books/oa-edit/10.4324/9781003052821 has been made available under a creative commons attribution non commercial no derivatives 4.0 license
