this eye opening book offers a critical survey of the true origins of liberalism it challenges the widely held belief among social scientists that liberalism was developed in opposition to christianity beginning with the protestant reformation it illustrates how christian thinkers reinterpreted christianity and used a set of indemonstrable biblical presuppositions from their reinterpretations to develop the first liberal ideas starting a process that culminates in the birth of the first liberal political theory in the writings of a devout christian philosopher john locke it explains how the protestant reformation covenant theology anti trinitarianism and medieval christian natural law theories formed the foundations of liberalism thus the central claim of this book is that liberalism is better understood as a radical reinterpretation of christianity that emerged in the post reformation and early modern period as a logical consequence of revealing the hitherto generally neglected roots of liberalism it eventually proposes that a legally pluralist liberal political theory is the best way to maintain human dignity and peace in multi religious societies of today s globalized world
