this book presents an historical and conceptual reconstruction of the theories developed by meinong and a group of philosophers and experimental psychologists in graz at the turn of the 19th century adhering closely to original texts the contributors explore meinong s roots in the school of brentano complex theories such as the theory of intentional reference and direct reference and ways of developing philosophy which are closely bound up with the sciences particularly psychology providing a faithful reconstruction of both meinong s contributions to science and the school that arose from his thought this book shows how the theories of the graz school raise the possibility of engaging in the scientific metaphysics and ontology that for so long have been considered off limits

this book examines the diffusion of economic ideas in east asia assessing the impact of external ideas on internal theory and practice it considers economists from adam smith onwards including marx keynes hayek and contemporary economists and covers the subject both historically and also includes present day and likely future developments the book covers all the major countries of east asia and pays particular attention to specific economists who have had a strong impact in specific countries and to important developments in economic theory in east asia exploring how far these have been driven by western economic ideas this

book will be welcomed by students and scholars of east asia and south east asia as well as those interested in economics economic history and management

this title was first published in 2003 richard sylvan died in 1996 he had made contributions to many areas of philosophy such as relevant and paraconsistent logic meinongianism and metaphysics and environmental ethics one of his trademarks was the taking up of unpopular views and defending them to richard sylvan ideas were important whether they were his or not this is a book of ideas based on a collection of work found after his death a chance for readers to see his vision of his projects this collected works represents material drafted between 1982 and 1996 and the theme is that a small band of logics namely pararelevant logics offer solutions to many problems puzzles and paradoxes in the philosophy of science

neo calvinism critically advances reformed orthodoxy for the sake of modern life birthed in the netherlands at the turn to the twentieth century initiated by abraham kuyper 1837 1920 and herman bavinck 1854 1921 it argued that a life before god entailed the leavening of faith over all human existence while the movement originated in the netherlands the tradition now has a global reach with practitioners and thinkers applying its insights in diverse ways and in their own contexts this handbook is a genealogical introduction to this lively and modern branch of the reformed tradition with contributors that reflect its global reach its four sections chart the theological roots important original figures historical contours and the contemporary influence of neo calvinism across a diversity of fields
