southeast asia offers unique opportunities for the comparative analysis of democratization the routledge handbook of southeast asian democratization provides a comprehensive overview of the development of democracy in the region and shows that political and structural factors

differ strikingly across countries combining theory and case studies it is structured in three major sections social segments and change processes institutions country cases and democratic guises contributing to on going debates in the field this interdisciplinary reference work explores the value systems social structures and institutions which can affect democratization at the same time it tracks the pattern of fragile unfolding and gradual stabilization of democracy as well as its resultant cost rollback or even breakdown in the region bringing together over 25 key international experts in the field this cutting edge handbook is designed to disaggregate then order the many variables that punctuate southeast asia s socio political and economic terrain and to produce a detailed account of the mixed fortunes of democracy in the region

five women entered the cathedral of christ the saviour in moscow and began a performance of a punk prayer young people fried eggs on the eternal flame near the tomb of the unknown soldier in ukraine a small island in the japan sea provoked a diplomatic spat between the leadership of japan and south korea all of these incidents are examples of politically motivated insults that escalated into surprisingly significant clashes while the field of conflict analysis has looked extensively at the dynamics of insults between individuals it has largely ignored the more complicated dynamics of insult committed between groups often of uneven political and social power in this book karina v korostelina offers a novel framework for analyzing the ways in which seemingly minor insults between ethnic groups nations and other types of groups escalate to disproportionately violent behavior and political conflict insult can take many forms yet as this book shows it is always a social act mutually defined between groups and it has the power to destabilize and redefine social and power hierarchies korostelina identifies six different drivers of political insults producing a theoretical model for analyzing intergroup insult and conflict she uses her model to explore each of the incidents above among other recent conflicts to explicate the complicated dynamics that figure within them the book concludes with practical suggestions for analyzing and resolving complex conflict situations

this book presents an earth science based overview of the challenges to sustainability it provides a detailed study of climate change as well as energy food and water security across different regions the author uncovers the problems caused by current social and environmental practices and offers potential solutions focusing on systems theory footprint analysis risk and resilience many examples are given of how to use resources sustainably especially common pool resources such as the atmosphere oceans and groundwater the book develops its ideas from an array of practical case studies centering on communal objectives and shared responsibilities

deep reductions in energy use and carbon emissions will not be possible within political economies that are driven by the capitalist imperatives of growth commodification and individualization as such it has now become necessary to understand the relationship between capitalism and the emergence of high energy habits using the examples of home energy transport and food the political economy of low carbon transformation articulates the relationship between the politics of economic expansion and the formation of high energy habits at the level of family and household

the book elaborates a theory of habit and how it can contribute to this relationship it critiques mainstream green economy and green energy prescriptions for low carbon transformation that take economic growth for granted and ignore habits formed in a material world designed and built for high energy use the book explores the growing number of communities around the world that are engaged in collaborative efforts to reform their community and household habits in ways that are less environmentally intrusive it assesses their potential to make an impact on national and urban low carbon political agendas the book is aimed at a large and growing interdisciplinary audience interested in the relationship between political economy consumption and sustainability

in a time of intensified global white supremacist and patriarchal violence anti racist feminist movements and analyses have never been more vital women of colour are at the forefront of these struggles worldwide but are white feminists really by their side despite a rich history of black and postcolonial critiques of racist and imperial feminist politics racism still exists within contemporary british feminism to explain why terese jonsson examines the history of feminism over the last forty years she argues that black feminism s role in shaping the movement has been marginalised through narratives which repeatedly position white women at the centre of the story from the women s liberation movement in the 1970s to today analysing the ways in which whiteness continues to pervade feminist literature as well as feminist debates in the liberal media jonsson demonstrates that despite an increased attention to race intersectionality and difference stories told by white feminists are shaped by their desire to maintain an innocent position towards racism

iraq is a nation in crisis bordering on civil war the country now faces growing violence a steady rise in sunni islamist extremism an increasingly authoritarian leader that favors iraq s sunnis and growing ethnic tension between arabs and kurds the recent iraqi election offers little promise that it can correct the corruption the weaknesses in its security forces and the critical failures in governance economic development and leadership the problems iraq faces in 2014 are a legacy of mistakes made during and after the u s led invasion in 2003 but increasingly the nation is dealing with the self inflicted wounds of its leaders who abuse human rights repress opposing factions and misuse the iraqi police and security forces to their own end
