by studying the many ways diverse peoples have changed shaped and conserved the natural world over time environmental historians provide insight into humanity s unique relationship with nature and more importantly are better able to understand the origins of our current environmental crisis beginning with the precolonial land use practice of native americans and concluding with our twenty first century concerns over our global ecological crisis american environmental history addresses contentious issues such as the preservation of the wilderness the expulsion of native peoples from national parks and population growth and considers the formative forces of gender race and class entries address a range of topics from the impact of rice cultivation slavery and the growth of the automobile suburb to the effects of the russian sea otter trade columbia river salmon fisheries the environmental justice movement and globalization this illustrated reference is an essential companion for students interested in the ongoing transformation of the american landscape and the conflicts over its resources and conservation it makes rich use of the tools and resources climatic and geological data court records archaeological digs and the writings of naturalists that environmental historians rely on to conduct their research the volume also includes a compendium of significant people concepts events agencies and legislation and an extensive bibliography of critical films books and sites

barely two centuries ago most of the world s productive land still belonged either communally to traditional societies or to the higher powers of monarch or church but that pattern and the ways of life that went with it were consigned to history as a result of the most creative and at the same time destructive cultural force in the modern era the idea of individual exclusive ownership of land this notion laid waste to traditional communal civilisations displacing entire peoples from their homelands and brought into being a unique concept of individual freedom and a distinct form of representative government and democratic institutions other great civilizations in russia china and the islamic world evolved very different structures of land ownership and thus very different forms of government and social responsibility the seventeenth century english surveyor william petty was the first man to recognise the connection between private property and free market capitalism the american radical wolf ladejinsky redistributed land in japan taiwan and south korea after the second world war to make possible the emergence of asian tiger economies through the eyes of these remarkable individuals and many more including chinese emperors and german peasants andro linklater here presents the evolution of land ownership to offer a radically new view of mankind s place on the planet

includes titles on all subjects some in foreign languages later incorporated into memorial library

de coulanges original study provided a historical view of how land has become property which was then translated and published in 1891 by m ashley not just to bring this study to an english reader but to provide a counter argument to agrarian communism this edition also contains an introductory chapter on the origin of the manor house in england this title will be of interest to students of history
