in this perennial bestseller seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world his message is clear we are not at the mercy of the subconscious or

helpless before forces we cannot understand we are gods couched in creaturehood seth says we are given the ability to form our experience as our thoughts and feelings become actualized seth was one of my first metaphysical teachers he remains a constant source of knowledge and inspiration in my life marianne williamson i would like to see the seth books as required reading for anyone on their spiritual pathway the amazing in depth information in the seth books is as relevant today as it was in the early 70s when jane roberts first channeled this material louise hay

the seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness deepak chopra m d author of the seven spiritual laws of success from the bestselling author of seth speaks and the nature of personal reality in the first volume of dreams evolution and value fulfillment seth presented an in depth picture of the origin of all life from the inner dream world to the vast display of material creation here in volume two seth continues his explanation of the physical world as an ongoing self creation a direct and intentional outgrowth of the wisdom of the life forms that inhabit it including humanity he expands upon his vision of a thoroughly animate universe where virtually every possibility not only exists but is constantly encouraged to achieve its highest potential in his typical awe inspiring manner seth sheds light on many controversial and complex subjects including the ways in which our religions have stifled the human spirit surprising insight into life s meaning and purpose the genetic basis of faith hope and charity the pursuit of pleasure as a fundamental human need how each species keeps millions of characteristics within its genetic bank for various contingencies dreams are mental work and play combined psychic and emotionally rich creative dramas they also involve you in the most productive of enterprises as you begin to play with versions of events that are being considered for physical actualization jane roberts speaking for seth

from the bestselling author of seth speaks speaking exclusively through jane roberts seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs but how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology in this pioneering work seth explores the connection between personal beliefs and world events he pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on darwinism freudianism religions cults and medical beliefs with fascinating and inspiring implications seth asserts that the personal impulses we are

often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events jane roberts speaking for seth

from the bestselling author of seth speaks and the nature of personal reality in september 1984 the voice that had spoken for one of the most profound and prolific metaphysical teachers of the 20th century fell silent seth the entity who described himself as an energy personality essence no longer focused in physical matter had spoken exclusively through jane roberts since 1963 during the long illness that led to her death jane continued to channel seth from her hospital bed but this final work was left unfinished now in the way toward health jane s husband robert butts shares with us the intimate story of jane s final days and the exquisite teachings that seth gave during that time in an examination of the miracle of life in a human body seth speaks about why medicine and therapy often perpetuate illness how the practice of naming diseases can work against us the influence of religion in creating disease how children s health is influenced by parents beliefs humor as an effective factor in healing includes 8 page photo gallery do not think of the mind as a purely mental entity and of the body as a purely physical one instead think of both mind and body as continuing interweaving processes that are mental and physical at once your thoughts actually are quite as physical as your body is and your body is quite as nonphysical as it seems to you your thoughts are you are actually a vital force existing as a part of your environment and yet apart from your environment at the same time jane roberts speaking for seth in the way toward health
