at 3 17 p m on march 18 1937 a natural gas leak beneath the london junior senior high school in the oil boomtown of new london texas created a lethal mixture of gas and oxygen in the school s basement the odorless colorless gas went undetected until the flip of an electrical switch triggered a colossal blast the two story school one of the nation s most modern disintegrated burying everyone under a vast pile of rubble and debris more than 300 students and teachers were killed and hundreds more were injured

as the seventy fifth anniversary of the catastrophe approaches it remains the deadliest school disaster in u s history few however know of this historic tragedy and no book until now has chronicled the explosion its cause its victims and the aftermath gone at 3 17 is a true story of what can happen when school officials make bad decisions to save money on heating the school building the trustees had authorized workers to tap into a pipeline carrying waste natural gas produced by a gasoline refinery the explosion led to laws that now require gas companies to add the familiar pungent odor the knowledge that the tragedy could have been prevented added immeasurably to the heartbreak experienced by the survivors and the victims families the town would never be the same using interviews testimony from survivors and archival newspaper files gone at 3 17 puts readers inside the shop class to witness the spark that ignited the gas many of those interviewed during twenty years of research are no longer living but their acts of heroism and stories of survival live on in this meticulously documented and extensively illustrated book

what will the future of texas be will its population continue to increase and if so how rapidly and where will this growth be most extensive will its wealth increase with its population or will per capita levels of income and wealth decrease what are the opportunities and challenges state government is likely to face in the first decades of the twenty first century a team led by state demographer steve h murdock examines these questions using new figures gathered in the decennial national census of 2000 from their analysis they are able to examine the effects of four major demographic trends that continue markedly to affect texas and other parts of the nation the new texas challenge explores changes in the rates and sources of population growth the aging and age structure of the population growth in the non anglo population the changing composition of texas households the intent is both to provide an overview of how far texas has come and to suggest where it may be going under conditions prevailing in the first years of this century

examines from various perspectives the school failure and success of chicano students the contributors include specialists in cultural and educational anthropology bilingual and special education educational history developmental psychology
